- **1 Identification**
- · Product identifier
- · Trade name: Cell Cycle Propidium Iodide for Cellometer
- Article number: CSK-0112
- · Application of the substance / the mixture Laboratory chemicals
- · Details of the supplier of the safety data sheet
- Manufacturer/Supplier: Revvity Lawrence Mfg Site 360 Merrimack St LAWRENCE, MA 01843 USA
- **Information department:** Technical Support
- 1 (978) 327-5340 Email Address CellC-Support@REVVITY.COM • Emergency telephone number:
- +1 (978) 327-5340 (8:30 AM 5:00PM EST, M-F)

## 2 Hazard(s) identification

· Classification of the substance or mixture

The product is not classified, according to the Globally Harmonized System (GHS).

- · Label elements
- · GHS label elements Void
- · Hazard pictograms Void
- · Signal word Void
- · Hazard statements Void
- · Other hazards
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.

### **3** Composition/information on ingredients

· Chemical characterization: Mixtures

- Description: Mixture of the substances listed below with nonhazardous additions.
- · Dangerous components: No Hazardous Components

| · Non-hazaı | · Non-hazardous components                          |                    |
|-------------|---|--------------------|
| 7732-18-5   | water, distilled, conductivity or of similar purity | >50–≤100%          |
| 7647-14-5   | sodium chloride                                     | >2.5–≤10%          |
| 7758-11-4   | dipotassium hydrogenorthophosphate                  | >2.5–≤10%          |
| 7778-77-0   | potassium dihydrogenorthophosphate                  | ≤2.5%              |
| 9001-99-4   | Nuclease, ribo-                                     | ≤2.5%              |
|             |   | (Contd. on page 2) |

#### Trade name: Cell Cycle Propidium Iodide for Cellometer

3,8-Diamino-5-(3-(diethylmethylammonio)propyl)-6-phenylphenanthridiniumdiiodid

(Contd. of page 1)  $\leq 2.5\%$ 

## **4** First-aid measures

- · Description of first aid measures
- · General information: No special measures required.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- · After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: If symptoms persist consult doctor.
- · Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

## **5** Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- · Protective equipment: No special measures required.

#### **6** Accidental release measures

· Personal precautions, protective equipment and emergency procedures Not required.

• Environmental precautions:

Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

- · Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- · Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.
- · Protective Action Criteria for Chemicals

| • PAC-1:                                     |                       |
|--|-----------------------|
| 7758-11-4 dipotassium hydrogenorthophosphate | 13 mg/m <sup>3</sup>  |
| 7778-77-0 potassium dihydrogenorthophosphate | 9.6 mg/m <sup>3</sup> |
| · PAC-2:                                     |                       |
| 7758-11-4 dipotassium hydrogenorthophosphate | 140 mg/m <sup>3</sup> |
| 7778-77-0 potassium dihydrogenorthophosphate | 110 mg/m <sup>3</sup> |
| · PAC-3:                                     |                       |
| 7758-11-4 dipotassium hydrogenorthophosphate | 830 mg/m <sup>3</sup> |
| 7778-77-0 potassium dihydrogenorthophosphate | 630 mg/m <sup>3</sup> |

## 7 Handling and storage

- · Handling:
- Precautions for safe handling No special measures required.
- · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- Storage: Store at  $(-16^{\circ}C) (-24^{\circ}C)$
- Specific end use(s) Research Use Only

### 8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see section 7.
- · Control parameters
- · Components with limit values that require monitoring at the workplace:
- The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- · Additional information: The lists that were valid during the creation were used as basis.
- · Exposure controls
- · Personal protective equipment:
- <sup>•</sup> General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

- Breathing equipment: Not required.
- · Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

<sup>•</sup> Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection: Goggles recommended during refilling.

#### 9 Physical and chemical properties · Information on basic physical and chemical properties · General Information · Appearance: Form: Fluid Red Color: Odorless · Odor: Not determined. · Odor threshold: · pH-value at 20 °C (68 °F): 7.4 · Change in condition Melting point/Melting range: Undetermined. ## 10 Stability and reactivity

• Reactivity No further relevant information available.

- · Chemical stability
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

## **11** Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- on the skin: No irritant effect.
- on the eye: No irritating effect.

#### Trade name: Cell Cycle Propidium Iodide for Cellometer

• Sensitization: No sensitizing effects known.

· Additional toxicological information:

The product is not subject to classification according to internally approved calculation methods for preparations: When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

#### · Carcinogenic categories

· IARC (International Agency for Research on Cancer)

None of the ingredients is listed.

#### · NTP (National Toxicology Program)

None of the ingredients is listed.

- · OSHA-Ca (Occupational Safety & Health Administration)
- None of the ingredients is listed.

## **12 Ecological information**

- · Toxicity
- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:
- Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

## **13 Disposal considerations**

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- Recommended cleansing agent: Water, if necessary with cleansing agents.
