revvity

Printing date 28.11.2023

Version number 9

Revision: 28.11.2023

Hazardous according to criteria of Australian Safety and Compensation Council.

1 Identification

- · Product identifier
- · Trade name: Filter-Count
- · Article number: 6013149, 6013141
- · Relevant identified uses of the substance or mixture and uses advised against
- **Product category** PC21 Laboratory chemicals
- · Application of the substance / the mixture Laboratory chemicals
- Details of the supplier of the safety data sheet

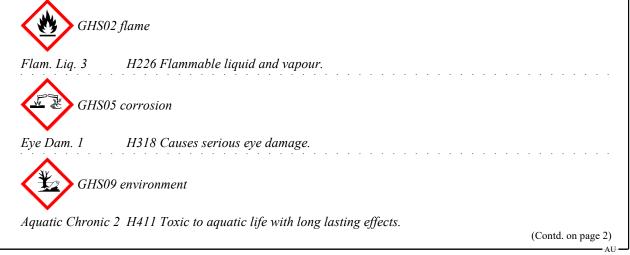

Manufacturer/Supplier: Revvity Health Sciences B.V. Rigaweg 22 9723 TH Groningen The Netherlands Phone: 0031 50 5445900 www.revvity.com Australian contact address: Revvity Level 2 ,Building C, Tenancy A, 211 Wellington Road, Mulgrave, VIC 3170 Australia Phone: +613 9212 8500

4 First Aid Measures

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

• After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

- In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- · After swallowing: If symptoms persist consult doctor.
- Information for doctor:
- Most important symptoms and effects, both acute and delayed Headache
- · Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

Page 4/10

5 *Fire Fighting Measures*

• Suitable extinguishing agents:

Foam

Fire-extinguishing powder

Carbon dioxide

- For safety reasons unsuitable extinguishing agents: Water with full jet
- Special hazards arising from the substance or mixture No further relevant information available.
- Protective equipment: Mouth respiratory protective device.

6 Accidental Release Measures

· Personal precautions, protective equipment and emergency procedures

- Wear protective equipment. Keep unprotected persons away.
- · Environmental precautions:
- Do not allow to enter sewers/ surface or ground water.
- Inform respective authorities in case of seepage into water course or sewage system.
- Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13.
- Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

7 Handling and Storage

- · Handling:
- Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.
- · Information about fire and explosion protection:
- Keep ignition sources away Do not smoke.
- Protect against electrostatic charges.
- · Storage:
- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Protect from heat and direct sunlight.
- Specific end use(s) No further relevant information available.

8 Exposure controls and personal protection

- Additional information about design of technical facilities: No further data; see section 7.
- · Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- Additional information: The lists valid during the making were used as basis.
- · Personal protective equipment:
- General protective and hygienic measures:
- Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.

Version number 9

Revision: 28.11.2023

Trade name: Filter-Count

(Contd. of page 4) Avoid contact with the eyes and skin. · Respiratory protection: In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. · Protection of hands: Protective gloves EN ISO 374-1/Type B · Material of gloves Nitrile rubber, NBR *Recommended thickness of the material:* $\geq 0.2 \text{ mm}$ *Breakthrough time:* > 120 *minutes* The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. · Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. • Eye protection: Tightly sealed goggles

General Information	
Appearance:	
Form:	Fluid
Colour:	Colourless
Odour:	Aromatic
Change in condition	
Initial boiling point and boiling	range: 170 °C
Flash point:	50 °C
Auto-ignition temperature:	520 °C
Ignition temperature:	Product is not selfigniting.
Explosive properties:	Product is not explosive. However, formation of explosive at
	vapour mixtures are possible.
Explosion limits:	1 1
Lower:	1.1 Vol %
Upper:	7.0 Vol %
Density at 20 °C:	0.920 g/cm^3
Solubility in / Miscibility with	Ŭ
water:	Not miscible or difficult to mix.
Other information	No further relevant information available.

10 Stability and Reactivity

• *Reactivity* No further relevant information available.

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: Carbon monoxide and carbon dioxide

11 Toxicological Information

· Information on toxicological effects

• Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values releva	nt for	classification:
-------------------------	--------	-----------------

ATE (Acute Toxicity Estimates)

Oral	LD50	>2,557 mg/kg
Dermal	LD50	4,157 mg/kg (Rabbit)
Inhalative	LC50/4 h	23.7 mg/l (Rat)

95-63-6 1,2,4-trimethylbenzene

Oral	LD50	3,400 mg/kg (Rat)
Dermal	LD50	3,160 mg/kg (Rabbit)
Inhalative	LC50/4 h	18 mg/l (Rat)

· Skin corrosion/irritation

Causes skin irritation.

· Serious eye damage/irritation

Causes serious eye damage.

· Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure
- May cause respiratory irritation.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

12 Ecological Information

	· Toxicity		
· Aquatic toxicity:			
	95-63-6 1,2,4-trimethylbenzene		
Inhalative LC50 7.19-8.28 mg/l (Other fish)			
		EC50/48h	6.14 mg/l (Daphnia magna)

· Persistence and degradability No further relevant information available.

• Behaviour in environmental systems:

· Bioaccumulative potential No further relevant information available.

• *Mobility in soil* No further relevant information available.

• *Ecotoxical effects:* • *Remark: Toxic for fish* (Contd. of page 6)

 Additional ecological information:
 General notes: Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

Also poisonous for fish and plankton in water bodies.

Toxic for aquatic organisms.

- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.
- Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

- Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.
