16.04.2024	Kit components
Product code	Description
AL3155HV	AlphaLISA Human IL2 Detection Kit (100 points)
Components:	
AL3155AC	Anti-hIL2 Acceptor Beads
AL3155BC	Biotinylated anti-hIL2 Antibody
AL3155S	AlphaLISA Human IL2 Analyte
AL000HV	AlphaLISA Immunoassay Buffer 10X, 2 mL
6760002HV	Streptavidin Donor Beads

Safety Data Sheet according to WHS Regulations

Printing date 16.04.2024

Revision: 02.08.2023

Hazardous according to criteria of Australian Safety and Compensation Council.

1 Identification

- · Product identifier
- Trade name: Anti-hIL2 Acceptor Beads

· Product number: AL3155AC, AL3155AF, AL3155AHV

- · Relevant identified uses of the substance or mixture and uses advised against
- Product category PC21 Laboratory chemicals
- · Application of the substance / the mixture Laboratory chemicals
- · Details of the supplier of the safety data sheet

• Manufacturer/Supplier: Revvity, Inc 549 Albany Street Boston, MA 02118 Supplier/Local:

Revvity Pty. Ltd Building C, Level 2, Tenancy A, 211 Wellington Road Mulgrave 3170, VIC Australia • Emergency telephone number: CHEMTREC (within US) 800-424-9300 CHEMTREC (from outside US) 1(703)-527-3887 • Local Emergency Number CHEMTREC - (Within Australia) +(61)-290372994

• *Further information obtainable from:* US Technical Support 800-762-4000

2 Hazard(s) Identification

· Classification of the substance	or mixture
Skin Irrit. 2	H315 Causes skin irritation.
Serious eye damage/irritation -	- Category 2A H319 Causes serious eye irritation.
Skin Sens. 1 • Additional information: For th	H317 May cause an allergic skin reaction. The wording of the relevant risk phrases refer to section 16.
 Label elements GHS label elements The produte Hazard pictograms GHS07 	ct is classified and labelled according to the Globally Harmonised System (GHS).

· Signal word Warning

- *Hazard-determining components of labelling:* 5-chloro-2-methyl-2H-isothiazol-3-one (<0.1%)
- · Hazard statements

Causes skin irritation. Causes serious eye irritation.

(Contd. on page 2)

ÁU

Printing date 16.04.2024

Revision: 02.08.2023

Trade name: Anti-hIL2 Acceptor Beads

(Contd. of page 1)
May cause an allergic skin reaction.
· Precautionary statements
Avoid breathing dust/fume/gas/mist/vapours/spray.
Wear protective gloves / eye protection / face protection.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
Continue rinsing.
If skin irritation or rash occurs: Get medical advice/attention.
<i>If eye irritation persists: Get medical advice/attention.</i>
Dispose of contents/container in accordance with local/regional/national/international regulations.
· Other hazards

- · Results of PBT and vPvB assessment
- *PBT:* Not applicable.
- **vPvB:** Not applicable.

3 Composition and Information on Ingredients

· Chemical characterisation: Mixtures

• **Description:** Mixture of substances listed below with nonhazardous additions.

· Dangerous components:

26172-55-4 5-chloro-2-methyl-2H-isothiazol-3-one

Acute Tox. 3, H301; Acute Tox. 3, H311; Acute Tox. 3, H331; 🚸 Skin Corr. 1B, H314; 🕥 Skin Sens. 1, H317

<0.1%

• Additional information: For the wording of the relevant risk phrases refer to section 16.

4 First Aid Measures

· General information: Immediately remove any clothing soiled by the product.

• After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

- · After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing: If symptoms persist consult doctor.

- Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- *Indication of any immediate medical attention and special treatment needed* No further relevant information available.

5 Fire Fighting Measures

• Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.

- Special hazards arising from the substance or mixture No further relevant information available.
- Protective equipment: Wear self-contained respiratory protective device.

6 Accidental Release Measures

• Personal precautions, protective equipment and emergency procedures Not required.

• Environmental precautions:

Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

(Contd. on page 3)

[–] AU

Printing date 16.04.2024

Revision: 02.08.2023

Trade name: Anti-hIL2 Acceptor Beads

• Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

• **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and Storage

· Handling:

· Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

- Information about fire and explosion protection: No special measures required.
- · Storage:

• Requirements to be met by storerooms and containers: No special requirements.

- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.
- Storage class: 12
- Specific end use(s) No further relevant information available.

8 Exposure controls and personal protection

• Additional information about design of technical facilities: No further data; see section 7.

· Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
- Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Suitable respiratory protective device recommended.

• Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

(Contd. on page 4)

Printing date 16.04.2024

Revision: 02.08.2023

(Contd. of page 3)

Trade name: Anti-hIL2 Acceptor Beads

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Tightly sealed goggles

General Information		
Appearance: Form:	Fluid	
Form: Colour:	Colourless	
	Odourless Odourless	
Odour:		
Odour threshold:	Not determined.	
pH-value:	Not determined.	
Change in condition	0.00	
Melting point/freezing point:	0 °C	
Initial boiling point and boiling range.		
Flash point:	Not applicable.	
Flammability (solid, gas):	Not applicable.	
Decomposition temperature:	Not determined.	
Ignition temperature:	Product is not selfigniting.	
Explosive properties:	Product does not present an explosion hazard.	
Explosion limits:		
Lower:	Not determined.	
Upper:	Not determined.	
Vapour pressure at 20 °C:	23 hPa	
Density at 20 °C:	$1 g/cm^3$	
Relative density	Not determined.	
Vapour density	Not determined.	
Evaporation rate	Not determined.	
Solubility in / Miscibility with		
water:	Fully miscible.	
Partition coefficient: n-octanol/water:	Not determined.	
Viscosity:		
Dynamic at 20 °C:	0.952 mPas	
Kinematic:	Not determined.	
Solvent content:		
Water:	99.0 %	
Solids content:	0.0%	

10 Stability and Reactivity

· Reactivity No further relevant information available.

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

• Possibility of hazardous reactions No dangerous reactions known.

(Contd. on page 5)

Printing date 16.04.2024

Revision: 02.08.2023

(Contd. of page 4)

Trade name: Anti-hIL2 Acceptor Beads

- · Conditions to avoid No further relevant information available.
- *Incompatible materials:* No further relevant information available.
- Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological Information

· Information on toxicological effects

- Acute toxicity Based on available data, the classification criteria are not met.
- · Skin corrosion/irritation Causes skin irritation.
- Serious eye damage/irritation Causes serious eye irritation.
- Respiratory or skin sensitisation May cause an allergic skin reaction.
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- *Reproductive toxicity Based on available data, the classification criteria are not met.*
- *STOT-single exposure* Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

12 Ecological Information

· Toxicity

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods
- · Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Must be specially treated adhering to official regulations.

- Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.

14 Transport information

- · UN-Number

7558-79-4 disodium hydrogenorthophosphate

· Hazard-determining components of labelling:

7447-40-7 potassium chloride

· Australia: Priority Existing Chemicals

None of the ingredients is listed.

• *GHS label elements* The product is classified and labelled according to the Globally Harmonised System (GHS). • *Hazard pictograms*

· Signal word Warning

5-chloro-2-methyl-2H-isothiazol-3-one (<0.1 %)
Hazard statements

Causes skin irritation.
Causes serious eye irritation.
May cause an allergic skin reaction.

Precautionary statements

Avoid breathing dust/fume/gas/mist/vapours/spray.
Wear protective gloves / eye protection / face protection.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If skin irritation or rash occurs: Get medical advice/attention.

Dispose of contents/container in accordance with local/regional/national/international regulations.

· Directive 2012/18/EU

· Named dangerous substances - ANNEX I None of the ingredients is listed.

- Seveso category E2 Hazardous to the Aquatic Environment
- Qualifying quantity (tonnes) for the application of lower-tier requirements 200 t
- Qualifying quantity (tonnes) for the application of upper-tier requirements 500 t

· Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

Revision: 02.08.2023

Hazardous according to criteria of Australian Safety and Compensation Council.

1 Identification

- · Product identifier
- · Trade name: AlphaLISA Human IL2 Analyte
- Product number: AL3155S
- · Relevant identified uses of the substance or mixture and uses advised against
- **Product category** PC21 Laboratory chemicals
- · Application of the substance / the mixture Laboratory chemicals
- · Details of the supplier of the safety data sheet

• Manufacturer/Supplier: Revvity, Inc 549 Albany Street Boston, MA 02118 Supplier/Local:

Revvity Pty. Ltd Building C, Level 2, Tenancy A, 211 Wellington Road Mulgrave 3170, VIC Australia • Emergency telephone number: CHEMTREC (within US) 800-424-9300 CHEMTREC (from outside US) 1(703)-527-3887 • Local Emergency Number CHEMTREC - (Within Australia) +(61)-290372994

• *Further information obtainable from:* US Technical Support 800-762-4000

2 Hazard(s) Identification

Skin Irrit. 2	H315 Causes skin irritation.
Serious eye damage/irritation	n – Category 2A H319 Causes serious eye irritation.
Skin Sens. 1 Additional information: For	H317 May cause an allergic skin reaction. the wording of the relevant risk phrases refer to section 16.
Label elements	
Label elements	
Label elements GHS label elements The prod	duct is classified and labelled according to the Globally Harmonised System (GHS

- *Hazard-determining components of labelling:* 5-chloro-2-methyl-2H-isothiazol-3-one (<0.1%)
- Hazard statements Causes skin irritation. Causes serious eye irritation.

(Contd. on page 2)

AU

Printing date 16.04.2024

Revision: 02.08.2023

Trade name: AlphaLISA Human IL2 Analyte

	(Contd. of page 1)
May cause an allergic skin reaction.	
Precautionary statements	
Avoid breathing dust/fume/gas/mist/vapours/spray.	
Wear protective gloves / eye protection / face protection.	
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present a	and easy to do.
Continue rinsing.	
If skin irritation or rash occurs: Get medical advice/attention.	
<i>If eye irritation persists: Get medical advice/attention.</i>	
Dispose of contents/container in accordance with local/regional/national/international regulations.	
· Other hazards	

- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.

3 Composition and Information on Ingredients

· Chemical characterisation: Mixtures

• Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous components:

26172-55-4 5-chloro-2-methyl-2H-isothiazol-3-one

🔗 Acute Tox. 3, H301; Acute Tox. 3, H311; Acute Tox. 3, H331; 📀 Skin Corr. 1B, H314; Skin Sens. 1, H317

<0.1%

• Additional information: For the wording of the relevant risk phrases refer to section 16.

4 First Aid Measures

· General information: Immediately remove any clothing soiled by the product.

• After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

- · After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: If symptoms persist consult doctor.

- · Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 *Fire Fighting Measures*

- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- Special hazards arising from the substance or mixture No further relevant information available.
- · Protective equipment: Wear self-contained respiratory protective device.

6 Accidental Release Measures

- · Personal precautions, protective equipment and emergency procedures Not required.
- · Environmental precautions:
- Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

(Contd. on page 3)

AU

Printing date 16.04.2024

Revision: 02.08.2023

Trade name: AlphaLISA Human IL2 Analyte

• Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

• **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and Storage

· Handling:

· Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

• Information about fire - and explosion protection: No special measures required.

· Storage:

• Requirements to be met by storerooms and containers: No special requirements.

- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.

• Storage class: 12

• Specific end use(s) No further relevant information available.

8 Exposure controls and personal protection

• Additional information about design of technical facilities: No further data; see section 7.

· Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- · Personal protective equipment:
- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
- *Respiratory protection:*

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Suitable respiratory protective device recommended.

• Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Printing date 16.04.2024

Revision: 02.08.2023

(Contd. of page 3)

Trade name: AlphaLISA Human IL2 Analyte

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Tightly sealed goggles

9 Physical and Chemical Properties

· General Information	
· Appearance:	
· Form:	Fluid
· Colour:	According to product specification
· Odour:	Characteristic
• Odour threshold:	Not determined.
· pH-value:	Not determined.
• Change in condition	
• Melting point/freezing point:	Undetermined.
Initial boiling point and boiling range:	: 100 °C
· Flash point:	Not applicable.
· Flammability (solid, gas):	Not applicable.
• Decomposition temperature:	Not determined.
· Ignition temperature:	Product is not selfigniting.
• Explosive properties:	Product does not present an explosion hazard.
• Explosion limits:	
· Lower:	Not determined.
· Upper:	Not determined.
• Vapour pressure at 20 °C:	23 hPa
· Density:	Not determined.
· Relative density	Not determined.
· Vapour density	Not determined.
· Evaporation rate	Not determined.
 Solubility in / Miscibility with 	
· water:	Fully miscible.
• Partition coefficient: n-octanol/water:	Not determined.
· Viscosity:	
· Dynamic:	Not determined.
· Kinematic:	Not determined.
· Solvent content:	
· Water:	49.0 %
· Solids content:	5.5 %
· Other information	No further relevant information available.

10 Stability and Reactivity

· Reactivity No further relevant information available.

• Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

· Possibility of hazardous reactions No dangerous reactions known.

(Contd. on page 5)

e 5) — AU -

Printing date 16.04.2024

Trade name: AlphaLISA Human IL2 Analyte

- · Conditions to avoid No further relevant information available.
- *Incompatible materials:* No further relevant information available.
- Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological Information

· Information on toxicological effects

- Acute toxicity Based on available data, the classification criteria are not met.
- · Skin corrosion/irritation Causes skin irritation.
- Serious eye damage/irritation Causes serious eye irritation.
- Respiratory or skin sensitisation May cause an allergic skin reaction.
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- *Reproductive toxicity Based on available data, the classification criteria are not met.*
- **STOT-single exposure** Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

12 Ecological Information

· Toxicity

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods
- · Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Must be specially treated adhering to official regulations.

- Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.

14 Transport information

Revision: 28.07.2023

Trade name: AlphaLISA Immunoassay Buffer 10X, 2 mL

 \cdot Qualifying quantity (tonnes) for the application of upper-tier requirements 200 t

· National regulations:

· Other regulations, limitations and prohibitive regulations

· Substances of very high concern (SVHC) according to REACH, Article 57

9002-93-1 Polyethylene glycol octylphenol ether

• Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

The information provided in this safety data sheet is based on our current knowledge, and is believed to be correct at the date of publication. However, no representation is made concerning its accuracy and completeness. It is intended as guidance only, and is not to be regarded as a warranty or specification of quality. All materials may present unknown hazards and should be used with caution. Although certain hazards are described, we cannot guarantee that these are the only hazards that exist. *Revvity, Inc. cannot be held liable for any damage resulting from handling or contact with the product.* · Relevant phrases H301 Toxic if swallowed. H311 Toxic in contact with skin. H314 Causes severe skin burns and eye damage. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H331 Toxic if inhaled. · Contact: · Abbreviations and acronyms: ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road) IMDG: International Maritime Code for Dangerous Goods IATA: International Air Transport Association EINECS: European Inventory of Existing Commercial Chemical Substances ELINCS: European List of Notified Chemical Substances CAS: Chemical Abstracts Service (division of the American Chemical Society) PBT: Persistent, Bioaccumulative and Toxic SVHC: Substances of Very High Concern vPvB: very Persistent and very Bioaccumulative Acute Tox. 3: Acute toxicity – Category 3 Skin Corr. 1B: Skin corrosion/irritation - Category 1B Skin Irrit. 2: Skin corrosion/irritation – Category 2 Serious eye damage/irritation - Category 2A: Serious eye damage/eye irritation - Category 2A Skin Sens. 1: Skin sensitisation – Category 1

Safety Data Sheet according to WHS Regulations

Printing date 16.04.2024

Revision: 28.07.2023

Not classified as hazardous according to criteria of Australian Safety and Compensation Council.

1 Identification

- · Product identifier
- · Trade name: Streptavidin Donor Beads
- · Product number: 6760002HV
- · Relevant identified uses of the substance or mixture and uses advised against
- Product category PC21 Laboratory chemicals
- · Application of the substance / the mixture Laboratory chemicals
- · Details of the supplier of the safety data sheet

• Manufacturer/Supplier: Revvity, Inc 549 Albany Street Boston, MA 02118 Supplier/Local:

Revvity Pty. Ltd Building C, Level 2, Tenancy A, 211 Wellington Road Mulgrave 3170, VIC Australia • Emergency telephone number: CHEMTREC (within US) 800-424-9300 CHEMTREC (from outside US) 1(703)-527-3887 • Local Emergency Number CHEMTREC - (Within Australia) +(61)-290372994

• *Further information obtainable from:* US Technical Support 800-762-4000

2 Hazard(s) Identification

Classification of the substance or mixture

The product is not classified, according to the Globally Harmonised System (GHS).

- · Label elements
- · GHS label elements Void
- · Hazard pictograms Void
- · Signal word Void
- · Hazard statements Void
- · Other hazards
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.

3 Composition and Information on Ingredients

- · Chemical characterisation: Mixtures
- · Description: Mixture of substances listed below with nonhazardous additions.
- · Dangerous components: Void

(Contd. on page 2)

AU –

Printing date 16.04.2024

Revision: 28.07.2023

Trade name: Streptavidin Donor Beads

• Additional information: For the wording of the relevant risk phrases refer to section 16.

(Contd. of page 1)

4 First Aid Measures

· General information: No special measures required.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: If skin irritation continues, consult a doctor.
- After eye contact: Rinse opened eye for several minutes under running water.
- · After swallowing: If symptoms persist consult doctor.
- Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

5 Fire Fighting Measures

• Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions. • Special hazards arising from the substance or mixture No further relevant information available.

• **Protective equipment:** Wear self-contained respiratory protective device.

6 Accidental Release Measures

- · Personal precautions, protective equipment and emergency procedures Not required.
- · Environmental precautions: No special measures required.
- Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- · Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and Storage

· Handling:

- · Precautions for safe handling No special measures required.
- · Information about fire and explosion protection: No special measures required.
- · Storage:
- Requirements to be met by storerooms and containers: No special requirements.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: None.
- · Storage class: 12
- Specific end use(s) No further relevant information available.

8 Exposure controls and personal protection

• Additional information about design of technical facilities: No further data; see section 7.

- · Ingredients with limit values that require monitoring at the workplace:
- The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

(Contd. on page 3)

Printing date 16.04.2024

Revision: 28.07.2023

Trade name: Streptavidin Donor Beads

(Contd. of page 2)

· Personal protective equipment:

General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

· Respiratory protection: Not required.

• Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

• **Penetration time of glove material** The exact break through time has to be found out by the manuf

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• *Eye protection: Goggles recommended during refilling*

9 Physical and Chemical Properties

· General Information		
· Appearance:		
· Form:	Fluid	
· Colour:	According to product specification	
· Odour:	Characteristic	
· Odour threshold:	Not determined.	
· pH-value:	Not determined.	
· Change in condition		
Melting point/freezing point:	0 °C	
Initial boiling point and boiling range:	100 °C	
· Flash point:	Not applicable.	
· Flammability (solid, gas):	Not applicable.	
Decomposition temperature:	Not determined.	
· Ignition temperature:	Product is not selfigniting.	
• Explosive properties:	Product does not present an explosion hazard.	
• Explosion limits:		
· Lower:	Not determined.	
· Upper:	Not determined.	
· Vapour pressure at 20 °C:	23 hPa	
• Density at 20 °C:	1 g/cm ³	
· Relative density	Not determined.	
· Vapour density	Not determined.	
· Evaporation rate	Not determined.	
• Solubility in / Miscibility with		
· water:	Not miscible or difficult to mix.	
• Partition coefficient: n-octanol/water:	Not determined.	
· Viscosity:		
· Dynamic:	Not determined.	
· Kinematic:	Not determined.	
· Solvent content:		
· Water:	97.5 %	
· Solids content:	0.2 %	
		(Contd. on page

ntd. on page 4)

Printing date 16.04.2024

Revision: 28.07.2023

(Contd. of page 3)

Trade name: Streptavidin Donor Beads

Other information

No further relevant information available.

10 Stability and Reactivity

· Reactivity No further relevant information available.

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological Information

· Information on toxicological effects

- · Acute toxicity Based on available data, the classification criteria are not met.
- · Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.
- $\cdot \textit{STOT-repeated exposure} Based on available data, the classification criteria are not met.$
- Aspiration hazard Based on available data, the classification criteria are not met.

12 Ecological Information

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- *Mobility in soil* No further relevant information available.
- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- Other adverse effects No further relevant information available.

13 Disposal considerations

- · Waste treatment methods
- · Recommendation

Smaller quantities can be disposed of with household waste. Must be specially treated adhering to official regulations.

· Uncleaned packaging:

• *Recommendation: Disposal must be made according to official regulations.*

Transport information		
· UN-Number · ADG, IMDG, IATA	Void	
· UN proper shipping name · ADG, IMDG, IATA	Void	
· Transport hazard class(es)		
· ADG, ADN, IMDG, IATA · Class	Void	
· Packing group · ADG, IMDG, IATA	Void	
Environmental hazards:	Not applicable.	
Special precautions for user	Not applicable.	
• Transport in bulk according to Annex L and the IBC Code	I of Marpol Not applicable.	
· UN "Model Regulation":	Void	

15 Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

· Australian Inventory of Industrial Chemicals

7732-18-5 Water

9003-53-6 POLYSTYRENE

7365-45-9 HEPES Free Acid

7647-14-5 sodium chloride

· Standard for the Uniform Scheduling of Medicines and Poisons

None of the ingredients is listed.

· Australia: Priority Existing Chemicals

None of the ingredients is listed.

· GHS label elements Void

· Hazard pictograms Void

· Signal word Void

· Hazard statements Void

· Directive 2012/18/EU

· Named dangerous substances - ANNEX I None of the ingredients is listed.

• Chemical safety assessment: A Chemical Safety Assessment has not been carried out.
