Technical datasheet:

Dimensions of polypropylene pipetting reservoir with 12 columns (21 mL/Well)

Part numbers: PN 6008700 Natural polypropylene, untreated

Material and treatment: Pipetting reservoir with 12 column-wise wells of 21 mL volume each. Made of

natural, untreated polypropylene.

Packaging: Part number 6008700 is a case with 25 reservoirs, packed as 5 bags of 5

reservoirs each.
