UNCONTROLLED COPY: Updated 11/30/2023

Certificate of Decontamination Form

Customers in the EU are advised to visit Revvity's public website and review <u>Revvity's Compliance to Environmental Directives</u> prior to discarding electrical and electronic equipment originally manufactured by Revvity (RVTY).

INSTRUCTIONS: This form must be used whenever customer-purchased/owned equipment (instruments, materials, parts, etc...) is shipped to RVTY or Revvity's business partners for repair, refurbishing, trade-in, replacement, recycling, disposal, or credit. Any equipment that has been used by a customer or located in an area where chemical, biological, or radioactive materials are/were handled must be assessed and, if necessary, decontaminated before it may be shipped from a customer's site. The customer must provide truthful, accurate information on this form and certify that the equipment is free of potentially-hazardous contamination prior to shipping.

Prior to shipping any <u>used</u> equipment to a destination facility, an authorized employee of the customer must complete/sign this form. RVTY field staff may complete/sign this form on behalf of the customer if the equipment is <u>new</u> and <u>unused</u>. A physical copy of this form shall be sent with the returned equipment (placed on the outside of the shipping container, in a "shipping docs" bag/envelope).

Certain destination facilities may have additional requirements for customers to submit this form for review and approval prior to shipping returned equipment. Contact RVTY Customer Care/Service for details.

EQUIPMENT DETAILS	
INSTRUMENT NAME / MODEL / TYPE	PART #
INSTRUMENT SERIAL #	
REASON FOR RETURN	
ADDITIONAL DETAILS (ex. attachment references, quantity of items, F1	
notification #, RMA #, sale order #, PO #, service	
alert details, etc)	
EQUIPMENT USE/DECONTAMINATION DECLAR	ATION
NEW, UNUSED EQUIPMENT - Customer/user certifies that retu	rned instruments/parts are new and have never been placed into service.
USED FQUIPMENT (NO CONTAMINATION) - Customer/user	certifies that returned instruments/parts are used, but <u>did not</u> come into
contact with a) biological substances; b) radioactive materials	
	(ION) ¹ - Customer/user discloses that instruments/parts may have come in
contact with biological, biohazardous, or infectious agents.	
Provide a detailed description of	
biological agents:	
Describe disinfection materials and methods used:	
memous osea.	
USED EQUIPMENT (POTENTIAL RADIATION CONTAMINATION	DN)² - Customer/user discloses that the instruments/parts may have come in
contact with radioactive materials.	
Provide a detailed description of	
radioactive materials:	
Describe decontamination or source-	
removal details:	
USED EQUIPMENT (POTENTIAL CHEMICAL CONTAMINATIO	ON) ³ - Customer/user discloses that the instruments/parts may have come in
contact with potentially-hazardous chemicals.	Costotilot, osci discloses mai me instruments, paris may have come in
Provide a detailed description of	
hazardous chemical contaminants:	
Describe decontamination materials	
and methods used:	
PEquipment used in BSL-4 laboratories cannot be shipped/returned. Customer must provide radiation survey results that demonstrate that the insabove background levels cannot be shipped/returned. Customers who wish radioactive materials (i.e. sealed sources) must contact RVTY and request insabupment that may have come in contact with chemical warfare agents,	tructions for how to prepare the equipment/materials prior to shipment.
CERTIFICATION	
	tion on this form is correct and that the returned equipment described above is free

Check this box if the equipment is verified new and unused and a RVTY employee has signed this form on behalf of the customer.
